April Special: IPL Package – 3 Face Treatments for \$1000!

Spring is the perfect time to refresh your skin, and we're making it even easier with our April IPL Special! This month, purchase a package of three IPL (Intense Pulsed Light) treatments for the face for just \$1,000—a great opportunity to achieve clearer, more radiant skin at a special price.

WHAT IS IPL AND WHAT DOES IT DO?

IPL (Intense Pulsed Light) therapy is a powerful skin treatment that uses broad-spectrum light to target and improve a variety of skin concerns, including:

- ✓ Sun damage (brown spots, freckles)
- ✓ Redness and broken capillaries
- ✓ Rosacea-related flushing
- ✓ Uneven skin tone and pigmentation
- ✓ Fine lines and overall skin

rejuvenation

By delivering pulses of light energy into the skin, IPL stimulates collagen production and breaks down unwanted pigmentation, revealing a smoother, more even complexion over time.

COMFORTABLE TREATMENT WITH NUMBING

To make your IPL experience as comfortable as possible, we apply a numbing medicine before each treatment. Most patients describe the sensation as a quick snap of warmth, similar to a rubber band flick, but with numbing, discomfort is minimal.

ROSACEA PATIENTS: INSURANCE MAY COVER YOUR IPL TREATMENT

If you have persistent redness from rosacea, some insurance plans cover IPL as a medical treatment. Our team can help determine if your insurance provides coverage for laser treatment—just ask during your consultation!

COLD SORE HISTORY? WE'VE GOT YOU COVERED

If you have a history of cold sores (herpes simplex virus), IPL can sometimes trigger a flare-up. To prevent this, we will prescribe antiviral medication for you to start before your treatment.

HOW MANY TREATMENTS DO I NEED?

Most patients see the best results after a series of 1-3 treatments, depending on their skin concerns. With our April special, you'll get a full package of three sessions at a discounted rate, setting you up for optimal skin improvement.

DON'T MISS THIS LIMITED-TIME OFFER!

This special IPL package pricing is available only through April. If you're ready to reduce redness, fade sun spots, and brighten your skin, call us today or book online to secure your package!

 **OFFER VALID THROUGH APRIL !**
